Love on a Leash Certified Therapy Dog

I'm a female Yorkie and have been visiting patients at the Palomar Medical Center in Poway since 2016. I weigh 4 lbs. My strength is sitting on patients' laps and giving high-fives. I love back scratches and sunbathing. And my favorite word is "Bunny". My purpose in life is to bring smiles and comfort to patients, families and caregivers.

My mom is Kim.

Heroes don't always wear capes. Sometimes they wear shaggy coats.

Palomar Paws is a volunteer program designed to bring a little TLC into the hospital setting as patients look forward to the four-footed visitors with as much anticipation as the two-footed kinds. Sometimes the tranquility and quiet joy a dog visit brings to a patient is the best prescription.

Help make a difference. Support Palomar Paws today!
